FACULTY AND INSTRUCTORS.

J. G. ROYER,
English Language and Science of Teaching.
(Chairman of Faculty.)

S. Z. SHARP,
German and Elocution.
(Secretary of Faculty.)

H. P. MOYER,
Greek and Latin.

E. A. ORR,
Natural and Physical Sciences.

F. W. HANAWALT,
Mathematics and Industrial Drawing.

E. S. YOUNG,
Sacred History and Letter Writing.

D. R. YOUNG,
Commercial Department.

G. B. ROYER,
Vocal Music and Composition.

MISS LILLIE BRAYTON,
Painting.

MISS SUSIE M'COSH,
Instrumental Music.

COURSES OF INSTRUCTION.

Academic Department.

This department affords thorough preparation for college, for business and for the profession of teaching; and comprises four courses, each requiring three years for its completion. The Classical, Latin-Scientfic and Scientific courses are preparatory to the corresponding courses in college. The English course is especially designed for those students who do not contemplate a college course, but who wish to prepare themselves for a business life, or for the *profession* of *teaching.*

CLASSICAL COURSE.

JUNIOR YEAR.

FIRST TERM.—Latin,—Grammar and Lessons; Arithmetic, Practical, completed; English Grammar; Descriptive Geography.

SECOND TERM.—Latin,—Grammar and Lessons; Arithmetic, Higher; English Grammar, completed, and English Language, begun; Elocution.

THIRD TERM.—Latin,—Cæsar; English Language completed; Elocution; Algebra.

MIDDLE YEAR.

FIRST YEAR.—Latin,—Cæsar, and Prose Composition; Greek,—Grammar and Lessons; Algebra; United States History, Elementary course.

SECOND TERM.—Latin,—Cicero (orations) and Prose Composition; Greek,—Grammar and Lessons; Algebra, completed; Rhetoric, with Essays.

THIRD TERM.—Latin,—Cicero (orations); Greek,—Anabasis and Greek Composition; Physical Geography; Bible History.

SENIOR YEAR.

FIRST TERM.—Latin, Virgil, Æneid; Greek,—Anabasis and Greek Composition; Geometry; Physiology.

SECOND TERM.—Latin,—Æneid; Greek,—Anabasis, and Greek Composition; Geometry completed; English Literature.

THIRD TERM.—Latin,—De Senectute; Greek,—Homer, Iliad; Astronomy; English Classics.

LATIN-SCIENTIFIC COURSE.

JUNIOR YEAR.

Same as in the Classical Course.

MIDDLE YEAR.

First Term —Latin,—Cæsar, and Prose Composition; Physical Geography; United States History, Elementary Course.

Second Term.—Latin,—Cicero (orations), Prose Composition; Physics; Algebra, Rhetoric, with Essays.

Third Term.—Latin,—Cicero (orations), Physics, completed, twice a week; English History, three times a week; Zoology, and Botany.

SENIOR YEAR.

First Term.—Latin,—Virgil, Æneid; German, Grammar and Reader; Geometry, and Physiology.

Second Term.—Latin,—Æneid; German, Grammar and Reader; Geometry completed, English Literature.

Third Term.—Latin,—Cicero, De Senectute; German, Reader completed, and a German Play, Astronomy, English Classics.

SCIENTIFIC COURSE.

JUNIOR YEAR.

First Term.—Orthography, Arithmetic, practical, completed; Grammar.

Second Term.—Descriptive Geography, Drawing, Grammar, completed, and English Language begun; Elocution; Arithmetic, higher.

Third Term.—Penmanship, Algebra, English Language completed, Elocution, Drawing.

MIDDLE YEAR.

First Term.—Civil Government, United States History, Elementary course, Algebra, Physical Geography.

Second Term.—Political Economy, Physics, Algebra, Rhetoric, with Essays.

Third Term.—Bible History, Physics, completed, twice a week, English History, three times a week, Botany, Zoology.

SENIOR YEAR.

First Term.—Geology, German, Grammar and Reader, Geometry and Physiology.

Second Term.—Chemistry, German, Grammar and Reader, Geometry completed, English Literature.

Third Term,—Modern History, German, Reader completed and a German Play, Astronomy, English Classics.

ENGLISH COURSE.

JUNIOR YEAR.

Same as in the Scientific course.

MIDDLE YEAR.

Same as in the Scientific course.

SENIOR YEAR.

First Term.—Geology, Moral Philosophy, Geometry, Physiology.

Second Term.—Chemistry, Psychology, Geometry completed, English Literature.

Third Term.—Modern History, International Law, Astronomy, English Classics.

Collegiate Department.

CLASSICAL COURSE.

FRESHMAN YEAR.

First Term.—Latin, De Amicitia and Livy. Four times a week. Greek, Lysias. Four times a week. Mathematics, University Algebra. Five times a week. Anglo-Saxon. Three times a week.

Second Term.—Latin, Livy; Roman History. Four times a week. Greek, Thucydides. Four times a week, Mathematics, University Algebra. Five times a week. Chaucer and Spencer. Three times a week.

Third Term.—Latin, Quintilian. Four times a week. Greek, Odyssey. Four times a week. Mathematics, Trigonometry. Four times a week. English speeches throughout the year.

SOPHOMORE YEAR.

First Term.—Latin, Horace. Greek, Herodotus. Mathematics, General Geometry.

Second Term.—Latin, Horace. Five times a fortnight. Greek, Demosthenes (De Corona). Five times a fortnight. Mathematics, General Geometry and Calculus. Five times a week. English Literature. Five times a week.

Third Term.—Latin, Tacitus. Five times a fortnight. Greek, Sophocles. Five times a fortnight. Mathematics, Calculus. Five times a week. Rhetoric. Five times a week. Essays throughout the year.

JUNIOR YEAR.

First Term.—Latin, Juvenal or Plautus. French or German. Physics.

Second Term.—Greek, Æschylus. Five times a fortnight. History of Civilization. Five times a fortnight. French or German. Five times a week. Physics. Five times a week.

Third Term.—Geology. French or German. Physics. Debates throughout the year.

SENIOR YEAR.

(REQUIRED STUDIES.)

First Term.—Metaphysics. Chemistry.

Second Term.—Logic. Five times a fortnight. Ethics. Five times a fortnight.

Third Term.—Evidences of Christianity Five times a week. Natural Theology. Five times a week.

ELECTIVE STUDIES.

First Term.—English Masterpieces, Political Economy, English Constitutional History, Latin, Greek, Geology, French. German.

Second Term.—Astronomy, Political Economy, Chemistry, Analytical Chemistry, English Masterpieces, French, German, English Constitutional History, International Law, Latin, Greek.

Third Term.—Shakespeare, Analytical Chemistry, American Constitutional History, French, German, Latin, Greek.

(Students will select enough from these to make three full studies.)

LATIN-SCIENTIFIC COURSE.

FRESHMAN YEAR.

First Term.—De Amicitia and Livy. Four times a week. German, Gœthe's Iphigenie auf Tauris. German Lyrics. Four times a week. Mathematics, University Algebra. Five times a week. Anglo-Saxon. Three times a week.

Second Term.—Latin, Livy. Roman History, Four times a week. German, Schiller and Lessing. Four times a week. Mathematics, University Algebra. Five times a week. Chaucer and Spencer. Three times a week.

Third Term.—Latin, Quintilian. Four times a week. German, Literaturgeschichte; translation into German. Four times a week. Mathematics, Trigonometry. Four times a week. History of English Language. Three times a week. English speeches throughout the year.

SOPHOMORE YEAR.

First Term.—Latin, Horace. Zoology, Mathematics, General Geometry,

Second Term.—Latin, Horace. Five times a fortnight. French, Grammar and Reader. Five times a fortnight. Mathematics, General Geometry and Calculus. Five times a week. English Literature. Five times a week.

Third Term.—Latin, Tacitus. Five times a fortnight. French, Grammar, Reader and Composition. Five times a fortnight. Mathematics, Calculus. Five times a week. Rhetoric. Five times a week. Essays throughout the year.

JUNIOR YEAR.

First Term.—Latin, (Juvenal or Plautus), or surveying. French, La Fontaine, Racine, Composition. Physics.

Second Term.—French, Brachet's Grammaire Francaise; Corneille; Composition. Five times a week. History of Civilization. Five times a fortnight. Meteorology. Five times a fortnight Physics. Five times a week.

Third Term.—French, Moliere, Victor Hugo. Geology, Physics. Debates throughout the year.

SENIOR YEAR.

(REQUIRED STUDIES.)

First Term.—Metaphysics. Chemistry.

Second Term.—Logic. Five times a fortnight. Ethics. Five times a fortnight. Elective Studies same as in Classical course, with the exception of Greek.

Third Term—Evidences of Christianity. Five times a fortnight. Natural Theology. Five times a fortnight.

ELECTIVE STUDIES same as in Classical course with the exception of Greek.

SCIENTIFIC COURSE.

FRESHMAN YEAR.

First Term.—Biology. Four times a week. German, Gœthe's Iphigenie auf Tauris; German Lyrics. Four times a week. Mathematics, University Algebra. Five times a week. Anglo-Saxon. Three times a week.

Second Term.—Geometrical Drawing. Four times a week. German, Schiller and Lessing. Four times a week. Mathematics, University Algebra. Five times a week. Chaucer and Spencer. Three times a week.

Third Term.—Structural Botany. Four times a week. German, Literaturgeschichte and Translation into German. Four times a week. Mathematics, Trigonometry. Four times a week. History of English Language. Three times a week. English Speeches throughout the year.

SOPHOMORE YEAR.

First Term.—Comparative Physiology, Zoology, Mathematics—General Geometry.

Second Term.—French, Grammar and Reader. Five times a fortnight. Mathematics, General Geometry and Calculus. Five times a week. Mineralogy. Five times a fortnight. English Literature. Five times a week.

Third Term.—French, Grammar, Reader and Composition. Five times a fortnight. Mathematics, Calculus. Five times a week. Mineralogy. Five times a fortnight. Rhetoric. Five times a fortnight. Essays throughout the year.

JUNIOR YEAR.

First Term.—French, La Fontaine, Racine, Composition. Mathematics, Surveying. Physics.

Second Term.—French, Brachet's Grammaire francaise; Corneille, Composition. Five times a week. History of Civilization. Five times a fortnight. Meteorology. Five times a fortnight. Physics. Five times a week.

Third Term.—French, Moliere; Victor Hugo. Geology, Physics, Debates throughout the year.

SENIOR YEAR.

(REQUIRED STUDIES.)

First Term.—Metaphysics, Chemistry.

Second Term.—Logic. Five times a fortnight. Ethics. Five times a fortnight.

Third Term.—Evidences of Christianity. Five times a fortnight. Natural Theology. Five times a fortnight.

ELECTIVE STUDIES same as in the Classical Course, with the exception of Latin and Greek.

Commercial Department.

This department furnishes facilities for such as desire to fit themselves for mercantile pursuits. It is conducted on the actual business plan. The student receives the practice as well as the theory. The Hall occupied by this department is fitted up and supplied with all the conveniences of any exclusively business college.

Farm Book-keeping.

There is not a merchant or tradesman who does not attempt to keep some form of accounts. The reason why farmers do not, is because they have no form suited to their use. Many text books omit the Farmer's Form entirely, and if given, most colleges pass it by as unimportant. We give special attention to Farmers' Form, and students who master this work can very readily and accurately keep any set of farm books, and know the exact amount of gain or loss on any kind of stock, grain, farm tools, etc.; also family expenses and accounts with neighbors and merchants; so that at the close of the year's farming one may know the value of his property and the amount of gain or loss. This is of great importance to farmers; and no young man who expects to follow farm-life can afford to enter upon his business without a thorough knowledge of Farm Book-keeping.

Expenses of Commercial Department.

In most Business Colleges the tuition alone is from $25.00 to $50.00 per term. Here the regular tuition admitting one to the other departments, also admits him to this course. On entering the Practical Department, a small fee is charged for books, graduation, etc. We feel confident in saying to any young lady or gentleman desiring a complete business education, that we offer inducements equal to any other school in the land.

General Information.

Library and Reading Room.

The Cassel Library, accessible to all, comprises three departments: one of books for Sabbath reading, one of books for reference, and a third of miscellaneous books. The Reading-room is supplied with choice papers and magazines.

Literary Culture.

As the food which is taken into the human system is of no value unless it be properly digested and absorbed, so the different studies and exercises of the school will be taken in vain, unless they be made a part of the mental fabric, and worked out through *written* and *oral communication.* To meet these demands, *Letter Writing,* including drills in all that pertains to communications of *Friendship, Recommendations, Notes of Invitation,* together with abundant exercises in capitals, spelling, punctuation, abbreviations, and the common faults and violations of style, is introduced at the opening of each term. Next follows the *Composition* class. Here students are taught to arrange their thoughts on different subjects, in an easy and natural manner. Grammar is thus made practical, and the student drilled in the power of expression. Following these drills come our classes in English Language, Rhetoric and English Literature, which give more extensive practice in the higher departments of literary work.

Literary Societies.

Two spacious halls are set apart for the Philorhetorian and Amphictyon Literary Societies, which meet weekly. Students are encouraged to join one or the other of these associations, as they afford valuable aid in composition, debating, parliamentary rules, etc.

Instruction

In Instrumental Music and Painting given by efficient instructors at very reasonable rates. Penmanship, Industrial Drawing, Vocal Music, Elocution, Composition and Letter Writing *free to all.*

Special Features.

(*a*)—Thoroughness; (*b*)—cheap, yet good board and well furnished rooms; (*c*)—the sick are well cared for; (*d*)—the moral and religious interests of the student are carefully guarded; (*e*)—both teachers and students are kind and sociable.

Students may enter at any time. Any one taking the year plan, on leaving, can have his board and tuition refunded by paying short rates for time in attendance, but room rent is not refunded until the room is re-rented.

Incorrigible students will be dismissed privately, and will forfeit all they have paid in advance.

Work, not *wealth*, is our standard. *Plain Living, Plain Dressing, Good Habits*, the watchwords.

Economy is at a premium here, and pervading the entire *School* and *Home* is that Christian spirit of *modesty*, which puts all stylish strut and foppish superfluity at a *heavy discount.*

Love for the *good old home*, however humble, and for the dear *mother* and *father*, however plain, are taught by precept and example.

Special Requests.

On Commencement occasions the Senior Class, at graduation, will be expected to dispense with jewelry, and appear in such neat but inexpensive attire as *proper economy* and good taste may suggest.

Parents are earnestly requested to have their children keep a strict account of their expenditures and forward it to them at stated periods.

Every article which will pass into the laundry should be marked with the full name.

Students should bring (*a*) *a Bible,*—(*b*) their school books for reference if not used in the course—(*c*) a pair of blankets for cold weather—(*d*) a knife, fork and spoon for use in case of sickness—(*e*) if members of the church of the Brethren, bring a letter of membership.

Students should not bring (*a*) revolvers, or other weapons, as there is neither use nor room for them here—(*b*) cards, dice, etc., the use of which is positively forbidden—(*c*) the violin and kind-

red instruments, which, on account of their influences, cannot be used in the building—(*d*) tobacco, the use of which is strictly forbidden on the school premises.

Location, Etc.

Mt. Morris, Ills., is a quiet town, about one hundred miles west of Chicago, on the Chicago & Iowa R. R. It is free from saloons, and surrounded by a beautiful country with a generous and intelligent people. The School Building and Boarding Hall are large and commodious, situated on an eminence overlooking the town and surrounding country. The Campus, containing six and one-half acres, is beautifully ornamented by a variety of shade trees.

The Rooms

Are furnished with carpet, bedstead, pillows, pillow-slips, sheets, comforter, table, chairs, wash-stand, wash-bowl and pitcher, mirror, bucket, etc. Each student should bring a comforter and a pair of blankets.

Access.

Students from the east, on their arrival at Chicago, will take the C. B. & Q. R. R. to Aurora, then C. & I. to Mt. Morris. Those coming from the west on the C. B. & Q., also change at Aurora as above. Those coming on the Illinois Central R. R. should come to Forreston, then on the C. & I. to Mt. Morris. *Before coming, students should write us concerning the purchase of their R. R. tickets.*

Upon Arrival

Report at the office, room No. 9, second floor of main building, where all will receive necessary information and be duly cared for.

The Objects of the School

Are to afford young people literary, moral and religious instruction; inculcate habits of punctuality and self-control, and develop a character that will lead to a life of usefulness.

Deportment.

On entering, a student shall receive a copy of the Rules and Regulations, instructing him in the customs of the institution, and by his enrollment and attendance he accepts them as his rules of conduct.

Students must not expect diplomas based on scholarship alone; they are liable to rejection on the score of character. Students are put on their honor to obey the regulations of this school.

It is expected that ladies and gentlemen will treat each other with politeness and courteous civilities; but whenever they transcend the proprieties of refined society, they are liable to dismissal.

Not a Reformatory.

While all are most cordially invited to come and share the benefits of our school and its reforming and Christianizing influences, young men who have contracted habits of idleness, profanity and drinking, must abandon such habits if they wish to remain in the school.

A Great Mistake

Is often made by parents in supposing that because their sons and daughters are quite young, they can learn very much yet in the district school. They are not aware that in many cases a mass of rubbish is piled up which must be removed before any true education can begin. It is much cheaper and better in the end to send to a good school at first and have a good foundation laid for all time to come. If a cabinet maker spoils a board in making a table or chair, another can be supplied. Not so with the soul. Every mistake, every wrong step, leaves a scar, a defect, perhaps never to be eradicated. Parents should remember this.

Things Prohibited.

(*a*) — Visiting immoral places; (*b*)—the use of tobacco on college premises; (*c*)—the use of intoxicants; (*d*)—playing cards; (*e*)—use of profane or obscene language; (*f*)—visiting during study hours; (*g*)—gentlemen visiting ladies' hall, or ladies visiting gentlemen's hall; (*h*)—noisy, disorderly, or unseemly conduct of any description; (*i*)—the use of violins and kindred musical instruments; (*j*)—revolvers, metallic knuckles, or weapons of any kind.

Satisfaction.

We guarantee satisfaction in instruction or refund *all* tuition. Any student who proves insubordinate, vicious or idle, may be dismissed at any time and shall forfeit all right to the amount paid for current term; nor can he be re-admitted, save by the consent of the faculty.

Dissatisfaction.

Should any misunderstanding or dissatisfaction arise on the part of the student, parents and guardians are requested to state the matter freely to the Principal, that if a mistake has occurred, it may be righted.

Sabbath.

All students are required to attend church and Sabbath-school in the College Chapel, unless otherwise directed by parents or guardians.

Recitations.

School exercises are held on each day of the week except Saturday and Sunday. Recitations occupy fifty minutes each.

Reports.

A daily record of standing is kept. This, together with the monthly examinations, determines the standing of the student. A card containing the grade in each study pursued, and in attendance, deportment, Bible-reading and church attendance, is sent at the close of each month to the parents or guardian of the student. If of age, the card is given to the student. Should parents not receive a report at the end of each month, they should write to the Principal at once.

What to Study.

Unless you have definitely made up your mind what course to pursue, better not determine until you have consulted with some member of the Faculty.

Only One Day.

Better come one day before work begins. If you came earlier than that and have nothing to do, you are liable to become homesick.

Dress.

Since the true idea of dress has more respect to neatness, comfort and health, than to fashion and display, we solicit the cooperation of parents in maintaining a proper consistency in this respect. Students should be provided with sufficient but *plain* clothing, and other necessaries. Dress-making should in all cases if practicable, be done at home. All extravagance in dress and the wearing of jewelry are considered injurious in every way, and parents are requested to see that their children do not come burdened with these superfluities.

Health.

It is a noteworthy fact that all invalids who come here, almost without exception, improve in health and spirits after the first three or four weeks.

Religious.

One of the most prominent features of our school is the effort to impress upon its students the claims and benefits of an exhalted morality and a vital religion. Besides the regular weekly preaching, prayer-meetings and Sunday-school services, all the students take part in daily Bible reading. There are also classes in Bible History. These afford rare opportunities for gaining an accurate working knowledge of the Scriptures and of missionary enterprises.

Bible Instruction.

A year's experience has proved that the Bible should be a regular text book in our school. There is a growing demand for *what the Bible says* instead of *what men say about the Bible.* To meet this growing demand, the Bible must be *the* text book, and the study of it properly systematized.

The lack of reverence which many have for the word of God is due to the very limited knowledge they have of it; and the reason why so many readers of the Bible know so little about its contents, is because they pursue no definite plan in their reading. If young people were properly assisted in the study of the Bible, they would develop a taste for Scripture reading that would lead them to reverence God's word, and prize the Bible above every other book.

In the coming year there will be at least two classes in Bible instruction. The year's work of the class studying the Old Testament, will complete Genesis, Job, Exodus, Leviticus, Numbers, Deuteronomy, Joshua, Judges, Ruth, and 1st and 2nd Samuel. The New Testament class will complete Matthew, Mark, Luke, John and the Harmony of the Gospels. This includes all the historical books of the Old Testament, together with all the historic information gleaned from the other sacred books.

The purpose of our work is to assist young men and women to extend their knowledge of the Scriptures and prepare them for usefulness in both Church and Sunday-school work.

Methods of Instruction.

1. By Lectures, which are followed by Recitations, in which the entire matter of the Lecture is reproduced by the student.

2. Books are divided into Parts, Sections and Paragraphs. After each paragraph a number of questions is put to bring out in full the contents of the paragraph.

3. Special attention is given to Geography, Chronology and Topography.

4. The student is required to have some Bible Geography, to which he may refer; and in the recitation room maps are placed to fully familiarize the student with the Bible lands.

5. The "Law of Moses" is systematically studied. This is important, because many passages in the later books of the Bible are made familiar by such study.

Correspondence pertaining to Bible work solicited by the Instructor of this department.

Expenses.

Tuition, Fall or Spring Term (12 weeks.)	$ 10 00
Tuition, Winter Term, (16 weeks.)	13 00
Good Board, Furnished Room and Tuition for Fall or Spring Term	40 00
Good Board, Furnished Room and Tuition for Winter Term	53 00
Per week, board, $2.10; room, 50c.; tuition, $1.00	3 60

(Fuel and Holiday Vacation Board are not included in the above.)

A discount of 10 per cent will be made from the above *term rates* to students who pay the year's expenses in advance. Thus: Fall Term, $40; Winter Term, $53; total, $133. Ten per cent of $133 is $13.30, which deducted, leaves the year's (40 weeks) expenses for board, furnished room and tuition, $119.70. This reduction made on the board for *year* students, reduces the board to $1.66 per week, as may be seen by the following:—

Tuition, fall term, $10; winter term, $13; spring term, $10; total, $33. Room rent (40 weeks) $20; the year's expenses, $119.70, less $53 for tuition and room rent, equals $66.70, cost of board for 40 weeks; or $1.66 per week.

This is cheaper than boarding in clubs. It is also true that by paying in advance for the year, $119.70, thereby securing the benefit of the $13.30 discount, 12 per cent per annum interest will be realized for the money paid. Hence the advantage of paying for the year in advance.

In case of sickness the student pays at term or week rates, as the case may be, for the time he has been here, and all the balance will be refunded. No deduction on account of sickness will be made for less than two weeks' absence.

For further particulars, address MT. MORRIS COLLEGE,
Mt. Morris, Illinois.

A Word from the Citizens.

We, the undersigned citizens of Mt. Morris, desire, in an emphatic manner, to express the sentiments of regard and respect which we entertain for the students and teachers of Mt. Morris College. We are honored in having so many worthy young ladies and gentlemen from all parts of the country come to make their school-home with us. We welcome them most heartily to our quiet town, to our homes, and to our flourishing churches. We congratulate them upon their good fortune in being able to enjoy the superior educational facilities and constantly growing excellence of the school in our midst; and we take pleasure in testifying to the studious habits and exemplary moral and Christian character of the students. While we are confident that the young ladies and gentlemen, who come to Mt. Morris to attend school, will attain such success and receive such inspirations from their instructors as will enable them to leave with noble aspirations and thorough qualifications for usefulness in life, we also desire that they may carry with them such pleasant memories, not only of the "Old Sandstone," but of Mt. Morris and its citizens as will cause them frequently to revisit the happy scenes of their school-life, and induce many others to seek the same privileges and to honor us with their presence and acquaintance.

Books, Paper, Inks, Pencils, Pens

and all Stationery needed in the College will be kept in the

COLLEGE

STATIONERY AND BOOK STORE,

found on second floor of Main Building. The supplies are made especially for the College, and will be sold at low figures.

The following is a list of books kept in the store, which will be rented to the students on the following conditions: — The student *must* deposit the full value of the book he wishes to rent, which amount will be refunded, less rent, when the book is returned. Any marking or unnecessary damages found on the book when returned will relieve the proprietors from their obligations to redeem it. The following is a list of the books that *may* be rented:

Grammars, Arithmetics, Elocutions, Histories, Geographies, Physical and Political, Complete Accountants, Spellers, Vocal Music Books, Algebras, Physiologies, English Languages.

The store will be open regularly from 12:45 to 1 o'clock, and from 5:45 to 6:30 P. M.

BARNES' NEW SCHOOL BOOK TYPE.

The increase of disease to the eyes of students, is one of the most significant phenomena of modern civilization. It has influenced the Germans to adopt the Roman type in place of the old German, and has aroused the serious attention of the medical profession. Some improvement in the printing of school books is beginning to be noticed; but nothing we have seen can compare in general adaptability to the wants of the eyes of the scholars, with the typography and clearness of illustration, of the New National Series of Readers and the Brief History of the United States, published by A. S. Barnes & Co.

Such praiseworthy endeavors to comply with the demands of Science, and to preserve the eyes of our children, deserves the hearty indorsement of every philanthropist.

TIMOTHY F. ALLEN, AM., MD., LLD.
N. Y., Dec. 16, 1885. Senior Surgeon to the N. Y. Opthalmic Hospital.
